Automating Data Import and Relationship Mapping Using Import Sets & Dot Walking

1.IDEATION PHASE

1.3 Brainstorming & Idea Prioritization

Step 1 – Brainstormed Ideas

- Manual data import using scripts
- Import Sets with manual relationship mapping
- Automated Import Sets with Transform Maps
- Import automation using Dot Walking

Step 2 – Grouping

- Manual Solutions
- Script-based data import
- Semi-Automated Solutions
- Import Sets with manual field mapping
- Fully Automated Solutions
- Import Sets with Transform Maps
- Dot Walking for automatic relationship mapping

Step 3 – Prioritization

Selected Solution:

- Automating Data Import using Import Sets and Dot Walking

Reason:

- High feasibility
- High efficiency
- Reduces manual effort
- Maintains accurate relationships between tables

IDEATION PHASE
Brainstorming & Idea Prioritization –
Automating Data Import & Relationship using Import Sets and Dot Walking
Step 1 - Ideas
Manual Scripts
Import Sets
Transform Maps
Step 2 - Grouping
Script Import
Import Sets
Transform Maps
Step 3 - Prioritization
Selested Solution
Automated Import Sets with Dot Walking
(High Impact : High Feasibility)
