# Automating Data Import and Relationship Mapping Using Import Sets & Dot Walking

## 1.IDEATION PHASE

### 1.2 Empathy Map Canvas

**User Persona: Data Administrator**

**Think & Feel**

- Worried about incorrect data relationships
- Concerned about data inconsistency

**Hear**

- Complaints from system users
- Feedback from management about data errors

**See**

- Multiple spreadsheets and databases
- Large amounts of raw imported data

**Say & Do**

- Manually map fields
- Check data relationships repeatedly

**Pain**

- Time-consuming data import
- Errors in relationships between tables

**Gain**

- Automated data import
- Accurate relationships using dot walking
- Faster data processing
